Introduction

Welcome to the Coverage Gap Discount Program (CGDP) Sponsor Portal Payments Users Guide. This guide provides you, the Sponsor, information on accessing the CGDP Portal to review, initiate, and track payments on distributed quarterly and Benefit Year (BY) Closeout invoices, as well as generate invoice and receipt reports.

As a Sponsor participating in the CGDP (the Program), you have agreed to advance coverage gap discount amounts on behalf of Medicare beneficiaries, who received covered Part D drugs while in the coverage gap phase of the Medicare benefit, and receive reimbursement from or submit adjusted reimbursements to Pharmaceutical Manufacturers participating in the Program.

This guide will assist you in complying with the Program requirements by utilizing the CGDP Portal to review distributed quarterly and BY Closeout invoices and remit payments to Manufacturers for adjusted invoice line items as well as review quarterly invoice payment receipts due from Manufacturers.

The primary function of the CGDP Portal, here forward known as the Portal, is to provide a central repository for Program-qualified prescription drug event (PDE) invoices to be distributed and paid by Program participants. In order to facilitate this processing, the Portal's direct payment process provides Sponsors the ability to perform the following Payment functions:

- Invoice review
- Invoice selection for payment initiation
- Invoice payment deferment
- Batch Invoice payment selection
- Automatic payment verification
- Payment receipt review
- Reports retrieval

The Portal allows Sponsors the ability to review invoice line items due to Pharmaceutical Manufacturers as well as payments due from Manufacturers to Sponsors. It also provides the ability to initiate bank-to-bank automated clearing house (ACH) transfers for invoice line item payments due to Manufacturers, similar to the way online banking customers pay monthly bills.

Note: All invoice payments must be processed in the Portal.

The **CGDP Sponsor Portal Payments Users Guide** will provide information on the payment functions available in the Portal as well as task-based instructions for performing payment initiations, payment and receipt status review, and invoice and receipt report information retrieval using the Reporting link functionality.

CGDP Portal Login

The Portal is a U.S. government information system. To access the Payment functionality a user must have authorized access to the Portal.

Authorized users of the Portal application must adhere to CMS information security policies, standards and procedures.

Detailed login instructions are located on the TPAdministrator.com website under [References](#) in the **CGDP Sponsor Portal Introduction and Login Users Guide**. Instructions contained within the guide include:

- Initial Security Data Set Up
- Daily Login
- Account Maintenance
- Navigation of the CGDP Portal and its tabs and links

Note: Users will not have the ability to view other Sponsors' data.

The CGDP Portal is accessed via a link on the TPAdministrator.com website.

The screenshot shows the Palmetto GBA TPA website. The header includes the Palmetto GBA logo and navigation links: Archives, Contact Us, and Email Updates. A search bar is located below the header. The main content area is titled "Welcome to the Third Party Administrator (TPA)". Below the title, there is a paragraph explaining the TPA's role as the gateway to the Coverage Gap Discount Program (CGDP). A second paragraph states that visitors can access information about the CGDP, including invoicing and payment procedures. Below the text, there are four main navigation buttons: CGDP PORTAL, CONTACT US, EMAIL UPDATES, and FAQ. To the left of these buttons are four more buttons: DISPUTES, EFT INFORMATION, INVOICES, and REFERENCES. Below the main navigation buttons, there are two sections: "IMPORTANT UPDATE" and "CGDP CUTOFF DATES". The "IMPORTANT UPDATE" section contains a message about the Medicare Part D CGDP Q3 2019 payment deadline of 12/9/19. The "CGDP CUTOFF DATES" section lists the reporting period for Q4 2019 and the deadlines for invoice distribution, invoice payment, and disputes submission.

Welcome to the Third Party Administrator (TPA)

The TPA website is the gateway to the Coverage Gap Discount Program (CGDP). The TPA is the single organization entity responsible for facilitating the transfer of CGDP funds between Pharmaceutical Drug Manufacturers and Part D Health Plan Sponsors.

Visitors to the website can access information about the CGDP including information regarding invoicing and payment procedures. In addition, users can access valuable links to CMS instructions and other official resources.

Once the Portal Login page displays, the Welcome and Site Use warning notification is presented to the authorized user and they are provided with the ability to review the Terms of Use of the application.

To access the Portal, Sponsors will enter their credential information provided by the TPA Operations Team. The User ID is the Parent Organization ID number assigned by the CMS Health Plan Management System (HPMS) that categorizes the information loaded to the Portal. Information is limited to only the Sponsor contract numbers associated with the Parent Organization ID. The TPA provides the initial temporary password to access the Portal to the Sponsor via email, once the onboarding process is complete.

To correctly exit out of the CGDP Portal, select the [Logout](#) link in the upper right hand corner of the active page. Do not select the “X” to exit the Portal.

Note: Failing to select the [Logout](#) link to exit the system will lock a user out of the Portal for a minimum of 30 minutes.

CGDP Portal User Roles

CGDP Portal Payment Initiator Role and Administrator Role

The Portal has two (2) different roles for users to access distributed invoices and reports.

- The **Payment Initiator** role provides the responsibility that allows a user to view all functionality of the Portal, including initiating payment of distributed invoices.
- The **Administrator** role provides the responsibility that allows the primary point of contact user to view all functionality of the Portal, save for the ability to initiate payments.

Note: Users will not have the ability to view other Sponsors' data.

Sponsor accounts have both the **Payment Initiator** role and **Administrator** role assigned to the primary point of contact as listed by the Sponsor in the HPMS by default. The **Payment Initiator** role can be assigned to a different person. HPMS must be updated to display the new authorized associate in the CGDP Portal Payment Initiator role. Once HPMS is updated, the new authorized **Payment Initiator** or **Administrator** will contact the TPA Operations in order to receive their user credentials to access the Portal.

For example:

A Sponsor has designated an associate, Mr. Price, as the primary point-of-contact for the Portal. An authorized HPMS user enters Mr. Price's information into the **TPA Liaison** field, which the TPA can verify to assign both the **Payment Initiator** and **Administrator** role by default. Mr. Price will now have access to the Portal to review files and initiate payments.

The Sponsor then determines that the Portal payment functionality should be assigned to their financial area. An authorized HPMS user enters Ms. Rentenmark's information in the **CGDP Portal Payment Initiator** field, which the TPA can verify to assign the **Payment Initiator** role to Ms. Rentenmark. She will have access to the Portal to review files and initiate payments while Mr. Price's Portal role will be updated to the **Administrator** role. Mr. Price will still be listed as the primary point-of-contact and will still have access to review files in the Portal.

Additional information regarding the Portal functionality for the **Payment Initiator** or **Administrator** role is available in subsequent sections of this manual titled **CGDP Portal Payment Initiator Role and Administrator Role** and in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.

Note: Portal User ID's are assigned to a specific person and **are not to be shared.** The person assigned Portal access is authorized by CMS and the TPA to access the data in the Portal. If the authorized user has changed, HPMS **must** be updated and the updated authorized user **must** contact the TPA to receive their authorized access credentials.

The user assigned the **Administrator** role will not have payment authorization available in the Portal.

The upcoming pages will highlight the differences available between the **Payment Initiator** role and the **Administrator** role in the **Payments** tab.

CGDP Portal Payment Initiator Role

This example of the **Payments** tab displays the view an associate with the **Payment Initiator** role will view.

The screenshot displays the CGDP Sponsor Portal interface. At the top, there are logos for Palmetto GBA and CMS, along with navigation links (Contact Us, My Profile, Logout, Help, Reporting) and a login status (Logged on as H0...0). Below the logos is a navigation bar with tabs: Home, Payments (highlighted), Completed, Receipts, Reports, and Disputes. The main heading is "Sponsor Portal CGDP Payments".

Below the heading, there is a section for "Invoice Reporting Period: 201504" and "Payments due: 03/10/2016". This section includes filters for "P Number" (ALL), "Parent Org. ID" (H0...0), and "Contract Number" (H0...0). A "1 - 2 out of 2" indicator is shown.

The main table displays payment data with columns: P Number, Invoiced Amount, Previous Deferred Amount, Payment/Failed Date, Initiate Payment, Defer, Failed, and EFT ID. Two rows of data are visible, with the first row highlighted. A "1" in a red box points to the "Initiate All" checkbox.

Below the table, there is a "3" in a red box pointing to the "Update All" checkbox and a date field. To the right, a "4" in a red box points to the "Submit" button.

On the right side, there is a "Payment Information" summary box showing totals for Invoiced, Failed, Deferred, Pending, Successful, and Available amounts. Below this is a "Payment Initiation Upload" section with a "2" in a red box pointing to the "Browse..." button and an "Upload" button.

At the bottom, there is a "Pending Transactions" section with a table showing transaction details. A "5" in a red box points to the "Stop Payment(s)" button.

Five (5) functions are available with the **Payment Initiator** role.

1. **Initiate All** check box provides a user with the functionality to populate the check box with a check mark. This action selects only invoice line items displayed on the active page for payment initiation.
2. **Payment Initiation Upload region** provides a location for uploading manually created payment files for users working with large volumes of payments for a reporting period.
3. **Update All** check box and field allows a user to set a future date only for invoices displayed on the active page.
4. **Submit** button provides a user one (1)-click functionality to process selected invoice line items for payment.
5. **Stop Payment(s)** button provides a user with one (1)-click functionality to process the selected invoices for stop payment.

Also assigned to a **Payment Initiator** role is the PIN Validation form, which requires the entry of a four (4)-digit numeric PIN once selection of the Submit, Upload or Stop Payment(s) buttons takes place for ANY payment initiation processing.

The **Payment Initiator** role associates can set the four (4)-digit numeric PIN using the Initial Security Data Setup instruction and update the PIN using the Account Maintenance: Update PIN instruction.

A screenshot of a web application window titled "Coverage Gap Discount Program". Inside the window, there is a section labeled "PIN Validation". Below this label is a text input field containing four dots, indicating a masked PIN. Below the input field is a button labeled "Validate". The entire form is enclosed in a blue header bar with a close button (X) in the top right corner.

The instructions included in this guide provide **Payment Initiation** associates step-by-step guidance to complete payment processing.

1. Processing Invoice Payments
2. Processing Future Dated Invoice Payments
3. Initiate All Payment Processing Functionality
4. Processing Stop Payments
5. Processing Payment Initiation Upload Batch Functionality
6. Processing Deferred Invoices

Administrator role associates can benefit from the instructions provided to understand the payment process and the steps needed to complete processing invoice line item payments by the "Invoice Paid by 38th Calendar Day After Receipt" as listed on the [Medicare Part D CGDP Calendar](#).

CGDP Portal Administrator Role

This example displays the view an associate with the **Administrator** role views when selecting the **Payments** tab.

The screenshot shows the 'Sponsor Portal' for 'CGDP Payments'. At the top, there are logos for 'PALMETTO GBA' and 'CMS'. Navigation tabs include 'Home', 'Payments' (highlighted with a red box and callout 1), 'Completed', 'Receipts', 'Reports', and 'Disputes'. The 'Payments' tab is active, showing a table of payment transactions. Callout 2 points to the 'Payment Information' summary box on the right. Callout 3 points to the 'Initiate Payment' button in the main table. Callout 4 points to the 'Submit' button in the 'Pending Transactions' section. Callout 5 points to the 'Stop Payment' button in the 'Pending Transactions' section.

1. Initiate All
2. **Payment Initiation Upload region**
3. Update All
4. Submit button
5. Stop Payment(s) button

Associates assigned the **Administrator** role can review distributed invoices, processed invoices, and payment information totals for distributed quarterly invoice line items.

The upcoming **Payment** functionality instructions provide step-by-step guidance for **Payment Initiator** role associates to complete payment processing. **Administrator** role associates can benefit from these **Payment** functionality instructions to understand the payment process and steps needed to complete processing invoice line item payments by the “Invoice Paid by 38th Calendar Day After Receipt” as listed on the [Medicare Part D CGDP Calendar](#).

CGDP Portal Payments

The primary function of the Portal is to provide a central repository for Program-qualified PDE invoices to be distributed and paid by Program participants. In order to facilitate this processing, the Portal has the following roles and tabs or pages to assist users with reviewing, initiating payments, tracking initiated payments and receivables statuses and generating reports.

- The **Payments** tab provides payment capabilities, similar to an online bill pay function, to allow the selection of one (1), some, or all of the invoices distributed for payment processing. Payments may also be available for deferability, if the amounts fall below the systems deferred allowable amount. Invoices initiated for payment display in the Pending Transactions region until the nightly status update process is generated. Once this process completes, successfully processed initiated invoiced line items will move to the **Completed** tab for status tracking.
- The **Completed** tab provides status information of previously initiated payments that have completed the nightly status update process successfully. Invoices initiated for payment will remain in a *Pending* status until the funds are successfully received in the payee's bank account. At that time, the status of the invoiced line item will update to *Successful*. The *Deferred* status is only available if distributed invoices meet the system criteria for deferral and are processed as such by the Sponsor.
- The **Receipts** tab provides a listing of invoiced line items due to be paid to Sponsors by Program-participating Manufacturers. Payments not initiated are listed as *Outstanding*. Payments that have been initiated list as a *Pending* status. A *Received* status notes that funds should be available in the payee's bank account. A *Deferred* status means that invoices met the system criteria for deferral and have been processed as such by the Manufacturer, and a *Failed* status notes that issues occurred with payment processing.
- The **Reporting** link provides a user with the ability to generate on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period via the Portal. This functionality provides an additional method of printing all invoice and receipt information for a specific reporting period, where the Print Icon, located on each page of the Portal, only provides the ability to print the data visible on an active page.

Instructions for daily login access for the Portal are in the **CGDP Sponsor Portal Information and Login Users Guide** located under [References](#) on the TPAdministrator.com website.

CGDP Portal Payments Tab: Quarterly Invoices

The **Payments** tab allows a user to review and process payment information for invoice line items by Manufacturer P number in the Portal. The available regions in the **Payments** tab differ for **Payment Initiator** role users versus **Administrator** role users.

Information provided displays the **Payment Initiator** role to describe the functionality of the **Payments** tab.

The **Payments** tab contains eight (8) regions.

- 1. Tabbed region – Payments** displays the tab that is currently active and tabs that are available for selection.
- 2. Invoice Reporting Period region** displays the specific quarter reporting period for invoice line items, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.
- 3. Payments Due region** displays the date the invoice line items are due to Manufacturers, in MM/DD/YYYY format, based on the reporting period selected in the **Filter region** on the **Home** tab.
- 4. Filter region – Payments** allows a user to search data listed by the defaulted Parent Org. ID.
- 5. Payment Information region** displays the numerical totals of all invoice line items and the different categories that each invoice line item may qualify as at a specific point in time, in a tabular format. Invoice line items reclassify as payment functionality is processed.
- 6. Payment Initiation region** displays invoice line items based on P Number and Contract Number data entered in the **Filter region – Payments**.
- 7. Payment Initiation Upload region** allows a user to upload multiple paid invoice line items data for ease in completing the payment initiation functionality, instead of working with each individual Manufacturer invoice line item.
- 8. Pending Transactions region** displays invoice line items that are pending payment.

The upcoming pages will describe each region and its associated functions.

Tabbed Region - Payments

The **Tabbed region** allows a user to select different activities to perform while accessing the system.

In this example, the **Payments** tab is active.

Invoice Reporting Period Region

This section of the **Payments** tab displays the specified reporting quarter, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In the example displayed, the distributed invoice line items appearing in the **Payment Initiation region** are associated with the reporting period listed in the **Invoice Reporting Period region**.

Payments Due Region

This section of the **Payments** tab displays the final payment due date of all invoice line items for a specified reporting period, based on the calculation of distributed invoice receipt date plus 38 calendar days.

In this example, the invoice line items displayed in the **Payment Initiation region** are due by the date listed in the **Payments Due region**.

Filter Region – Payments

The **Filter region** on the **Payments** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

④ A P Number: B Parent Org. ID: H0__0 C Contract Number: D 1 - 2 out of 2

- A. P Number field allows a user to select specific P numbers from the drop down list. The drop down list provides update capability to select another P number with invoice line items within the same reporting period. The field defaults to 'ALL', which displays all P numbers for the reporting period.
- B. Parent Org. ID column defaults to the Parent Organization ID utilized to access the system.
- C. Contract Number field displays the contract number for invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. The drop down list provides update capability to select another contract number with invoice line items within the same reporting period and assigned to the Parent Org. ID.
Note: In order to view a different reporting period, a user will need to return to the **Home** tab and select a distributed invoice with a different reporting period.
- D. Item Count column provides the number of invoice line items displayed on the current page out of the total number of invoices included for the reporting period. This field also contains a Next Page icon to alert the user to multiple pages of distributed invoices, if applicable.

Payment Information Region

The **Payment Information region** provides a summary view of activities that occur on the active **Payments** page.

This region provides up-to-date data regarding invoice line item activity in a two (2)-column table with eight (8) rows.

5

Payment Information		
A	Total Invoiced	\$41.05
B	Total Failed	\$0.00
C	Total Current Deferred	\$0.00
D	Total Previously Deferred	\$0.00
E	Total Pending	\$0.00
F	Total Successful	\$0.00
G	Total Available	\$41.05

- A. Total Invoiced field displays total dollar amount of invoice line items that require payment for the reporting period.
- B. Total Failed field displays the total dollar amount of invoice line items selected for payment that contained errors and did not complete the payment process for the reporting period.
- C. Total Currently Deferred field displays the total dollar amount of deferred invoice line items postponed from the current reporting period to the subsequent reporting period.
- D. Total Previously Deferred field displays the total dollar amount of previously deferred invoice line items postponed from prior reporting periods.
- E. Total Pending field displays the total dollar amount of invoice line items selected for payment initiation for the reporting period.
- F. Total Successful field displays the total dollar amount of invoice line items that have successfully paid and are no longer visible in the **Payment Initiation** or **Pending Transaction regions** of the **Payments** tab.
- G. Total Available field displays the total dollar amount of remaining invoice line items requiring payment.

Payment Initiation Region

The **Payment Initiation region** on the **Payments** tab displays information requested in the **Filter region** on the **Payments** tab, based on the data selected in the P Number or Contract Number columns.

Note: To generate Excel reports of the invoices listed on the **Payments** tab, use the *CGDP Portal Instructions – Reporting Link* instructions located in a subsequent section of this manual.

This region contains eleven columns that assist a user in processing invoice line items for payment.

- A. P Number column displays the Manufacturer P number.
- B. Invoiced Amount column displays the invoice line item amounts due to the Manufacturer.
This column also provides users with the ability to sort the Invoiced Amount column in ascending or descending amount order, using the directional arrows provided to the right of the column title.
- Note:** The amount automatically populates from the quarterly invoice and is not subject to modification.
- C. Previous Deferred Amount column displays deferred amounts from prior reporting period(s).
- D. Payment/Failed Date column displays a field that defaults to the current date for an invoice line item payment, in MM/DD/YYYY format.

The Payment/Failed Date field also contains a Calendar icon to allow a user to change payment dates to a future date. Users can either manually enter the date into the field, in MM/DD/YYYY format or utilize the Calendar icon to populate the updated payment date.

The Payment/Failed Date will default to the current date when the Initiate All functionality is used. It will display the date that a payment initiation failed payment processing.

Note: Selecting the Initiate All check box will **only** affect invoice line items displayed on the active page in the **Payment Initiation region**.

To process all invoice line items utilizing the Initiate All function a user must populate the Initiate All check box for the invoice line items displayed on the active page, update the Payment/Failed Date, if applicable, and select the Submit button. The user must then re-select the Initiate All button for the new page of invoice line items displayed and select the Submit button. The Initiate All process should be repeated until the **Payment Initiation region** displays “*There are no more remaining invoice line items for the quarter.*”

Additional Notes:

- Removing the check mark from the Initiate All check box will remove all Initiate Payment check marks for invoice line items on the active page.
- Selecting the Next Page icon prior to selecting the Submit button will undo the Initiate All for the prior page.

F. Initiate Payment column allows the user to populate the check box with a check mark to allow the payment process to begin for an individual invoice line item.

G. Defer column provides check boxes available for selection when the Total Available amount in the **Payment Information region** totals less than the system-default allowable amount, currently designated as \$20.00 United States Dollars (USD).

The Portal provides the ability to defer payment of distributed invoice line items to a subsequent reporting period *if*:

- The Total Available amount field in the **Payment Information region** totals less than the Portal's defer-default allowable amount and
- A Sponsor's banking ACH process prevents processing of the total amounts selected for payment initiation that fall below their specified minimum dollar ACH processing amount for a specific payment date.

The payment initiation process used by the Portal initiates a lump sum debit from Sponsor bank accounts for the total amount of payments initiated per day, not individual line item debits.

Defer functionality becomes available if the amount listed in the Total Available field is less than the Portal's defer-default allowable amount, currently designated as \$20.00 USD.

For example, a Sponsor's banking institution allows ACH processing for dollar amounts greater than \$5.00. If the Total Available field displays a total between \$5.00 and the system-default allowable amount, the items should not be deferred to the subsequent reporting period, even if the Defer check box is available.

The most important facts to know before deferring an invoice are:

- Sponsors are responsible for verifying their banking institution's specific threshold for low-dollar ACH amounts permitted for processing.
- The Portal processes initiated payments as a lump sum debit from Sponsor accounts for the total number of invoices selected to initiate on a specific day, not as individual invoice line items.

This example displays one (1) distributed payable invoice listed in the Invoiced Amount field that is less than the system-default allowable amount and this Sponsor's ACH low-dollar amount threshold. The Defer column displays a check box for the invoice line item for deferral to the subsequent reporting period.

CGDP Portal Instructions – Payments Tab: Quarterly Invoices

Processing Invoice Payments

Sponsors are required to process invoice line item payments on a quarterly basis 38 calendar days from receipt of distributed invoices using the Portal. The Portal allows a user to process payments for individual invoice line items with a default payment date of the current calendar day.

This instruction provides direction on the steps needed to process payments for individual invoice line items utilizing the current calendar day as the payment initiation date.

Note: Completion of this process is limited to Sponsor associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to process invoice line item payments on a quarterly basis due within 38 calendar days from receipt of the distributed invoices. Instructions for daily login into the CGDP Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

The main navigation bar includes Home, Payments (highlighted), Completed, Receipts, Reports, and Disputes. The page title is "Sponsor Portal CGDP Payments".

Below the navigation bar, there is a section for "Invoice Reporting Period: 201504" and "Payments due: 03/10/2016". This section includes filters for P Number (ALL), Parent Org. ID (H000), and Contract Number (H000), with a "1 - 2 out of 2" indicator. There is an "Initiate All" checkbox.

The main table lists invoice items with columns: P Number, Invoiced Amount, Previous Deferred Amount, Payment/Failed Date, Initiate Payment, Defer, Failed, and EFT ID. Two items are shown: P105 with an amount of \$1,063.44 and P108 with an amount of \$10.58. Both have a payment date of 03/23/2016. There are checkboxes for "Initiate Payment" and "Defer" for each item. A "Submit" button is at the bottom right of the table.

Below the table is a "Pending Transactions" section with a "1 - 1 out of 1" indicator. It contains a table with columns: P Number, Authorization Amt, Date Submitted, Payment Date, and Stop Payment. One transaction is listed: P101 with an authorization amount of \$101.12, submitted on 03/23/2016, and a payment date of 03/23/2016. A "Stop Payment(s)" button is at the bottom right.

On the right side, there is a "Payment Information" box with a table showing totals: Total Invoiced (\$1,175.14), Total Failed (\$0.00), Total Current Deferred (\$0.00), Total Previously Deferred (\$0.00), Total Pending (\$101.12), Total Successful (\$0.00), and Total Available (\$1,074.02). The "Total Pending" value is highlighted with a red box.

Below the "Payment Information" box is a "Payment Initiation Upload" section with a "Browse..." button and an "Upload" button.

You have now initiated a payment of an individual invoice line item.

Initiate All Payment Processing Functionality and Future Date Processing

Sponsors can utilize the Initiate All functionality to process payment initiation for multiple invoice line items loaded to the Portal. The Initiate All function provides the capability to select only invoice line items located on the active page in the **Payment Initiation region** to initiate payment processing on the current date. The Initiate All function also allows for updating payment initiation processing dates to a future date for any available invoice line item(s) displayed in the active **Payment Initiation region**.

This instruction provides direction on utilizing the Initiate All functionality and the available features that are included for processing payment initiation.

Note: Completion of this process is limited to Sponsor associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to process payment initiation for multiple invoice line items loaded to the Portal. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the Invoice Type field.

Note: The Initiate All check mark selects only invoice line items that appear on the active **Payment Initiation region** page.

The population of the Initiate All check mark does NOT select all invoice line items for the reporting period.

In order to utilize the Initiate All functionality for all invoice line items, select each page in the **Payment Initiation region** separately, populate the Initiate All check box, and select the Submit button prior to moving to the next page in the region. Not performing the submission will delete all data entered on the current page.

8. The selection of the Initiate All check box provides the ability to select only displayed invoice line items for payment processing with the payment initiation date set as the current date. If it is determined that all invoice line items displayed should process for payment on the current date, select the Submit button to initiate the payment process.

If it is determined that invoice line items cannot be processed for the current date, the Initiate All functionality provides the ability to update the payment initiation date to a future calendar date.

- To update all invoice line items, use the Update All check box and field located below the **Payment Initiation region**.
- To update individual invoice line items, use the calendar icon located on the specific invoice line.

- To update all payment initiation dates to a future date different from the current business date displayed in the Payment/Failed Date field, select the calendar icon to the right of the Update All check box, located below the **Payment Initiation region**. This action expands a calendar that allows selection of a future date for the payment initiation to begin. Select the applicable date then populate the Update All check box to update the date only for the payments on the active page.

Payment Initiation Upload

You have now completed processing invoice line items utilizing the **Initiate All** functionality.

Processing Stop Payments

The Portal allows Sponsors to stop the payment processing of future dated invoice line items prior to the completion of the payment process.

The **Stop Payment** process is only available for pending invoice line item payments that contain a payment date greater than the current calendar date. Selecting a pending invoice line item payment for stop payment will reassign the stopped invoice line item to the **Payment Initiation region** for reprocessing.

This instruction provides direction on the steps needed to process stop payments for pending invoice line item payments.

Note: Completion of this process is limited to Sponsor associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to stop the payment processing of future dated invoice line items prior to the completion of the payment process. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

Processing Payment Initiation Upload Batch Functionality

Sponsors can utilize the **Payment Initiation Upload** functionality to select multiple invoice line items for payment processing in one (1) batch text file versus utilizing individual invoice line item processing or the Initiate All payment functionality. A batch text file is a creation of a semi-colon delimited text file, which is loaded to the Portal for processing. Once the upload is completed, results of the batch text file upload are available for review via the **Reports tab – Batch** functionality.

This instruction provides direction on processing invoice batch upload functionality.

Note: Completion of this process is limited to Sponsor associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to use the invoice batch upload functionality to initiate invoices due for payment on a quarterly basis 38 calendar days from receipt of distributed invoices. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

5. To view invoice line items in an Excel spreadsheet format, there are two (2) functions that assist with displaying invoice information in Excel formats, the Print icon and the Reporting link. This instruction demonstrates the Print icon output. Instructions for the Reporting link are in the *Accessing the Reporting Link* instructions in this manual.

The Print icon allows a user to view formatted information regarding only the invoice line items displayed on the active page in the **Payments** tab in a Microsoft Office Excel spreadsheet format.

Note: The Print icon will only print up to 99 invoice line items in an excel file. This is the maximum amount of invoice line items that can display on an active page in the **Payments** tab. If a reporting period contains more than 99 distributed invoice line items, a user will have to access each **Payments** page of invoices listed and select the Print icon for each active page.

To print all distributed invoice line items for a specific reporting period on the **Payments** tab, utilize the *Accessing the Reporting Link* instructions in this manual.

The Excel spreadsheet generated by the Print icon contains three (3) tabs.

- Invoice line item data corresponding to the active **Payment Initiation region** page displays on the CGDP Payments tab of the spreadsheet.
- Invoice line item data corresponding to the active **Pending Transactions region** page displays on the Pending Transactions tab of the spreadsheet.
- Summary information corresponding to data visible in the **Payment Information region** displays on the Total Payment Information tab of the spreadsheet.

The Microsoft Excel spreadsheet allows a user to view all invoice line items displayed on the active **Payments Initiation region** page (up to 99 invoices per page) without requiring a user to scroll through the data. It provides a format that allows users the ability to massage invoice line item data required in creating Batch text files.

In order to view all invoices in a spreadsheet format, the Reporting link functionality allows a user to print all invoice line items for a specific reporting period. To utilize the Reporting link to print all payable invoice line items on the **Payments** tab or receivable invoice line items on the **Receipts** tab, refer to the *Accessing the Reporting Link* instructions in this manual.

6. Select one (1) of the decision buttons in the message that appears at the bottom of the screen.
 - Open to view the active **Payment Initiation region** data in an Excel file format
 - Save to save the active **Payment Initiation region** data in Excel file format
 - Cancel to exit the decision message

This example displays the selected Open button.

7. After selecting the Open button, the file information for the active **Payment Initiation region** page will display in Microsoft Excel.

This example displays the invoice line items only found on the active page of the **Payment Initiation region** with the current date displayed in the Payment/Failed Date column.

A screenshot of a Microsoft Excel spreadsheet titled "S5__8_201504_invoice_information.xlsx". The spreadsheet displays invoice line items with the following columns: CONTRACT NUMBER, INVOICE AMT, PREVIOUS DEFERRED AMT, PAYMENT/FAILED DATE, FAILED DUE TO, and EFT ID. The data is as follows:

	A	B	C	D	E	F
	CONTRACT NUMBER	INVOICE AMT	PREVIOUS DEFERRED AMT	PAYMENT/FAILED DATE	FAILED DUE TO	EFT ID
2	P1_5	\$284.54	\$0.00	03/25/2016		CG15041__5S5_8
3	P1_2	\$13.69	\$0.00	03/25/2016		CG15041__2S5_8
4	P1_3	\$714.68	\$0.00	03/25/2016		CG15041__3S5_8
5	P1_7	\$2.50	\$0.00	03/25/2016		CG15041__7S5_8

Note: The Print icon will download and display invoice line items for only the active **Payment Initiation region** page. To view all invoice line items for a reporting period, refer to the *Accessing the Reporting Link* instruction for creating invoice reports.

Use the Microsoft Excel file(s) to determine which of the invoice line items to include in the batch text file.

8. For each invoice line item to be included in the batch text file, collect this information:

Header Record:

- Parent Organization ID
- Reporting Period

Detail Record(s):

- Contract Number
- P Number
- EFT ID information
- Payment date

Defer Invoice (Yes or No)

Once the information is collected for each invoice line item, create batch lines using information referenced in [Appendix C: Sponsor Payment Initiation Upload Batch Input Requirements](#) for assistance with formatting batch text files.

Batch Header Line consists of 'HDR' to notate header line followed by a semi-colon (;), Parent Org ID followed by a semi-colon (;) and Reporting Period, in YYYYQQ format.

Example of Batch Header line:

- HDR;H9999; YYYYQQ

Batch Detail Line consists of 'DET' to notate detail line followed by a semi-colon (;), contract number followed by a semi-colon (;), P number followed by a semi-colon (;), EFT ID information, in CGYYQQ9999H9999 format, followed by a semi-colon (;), Payment date, in CYYMMDD format, followed by a semi-colon (;), 'N' for not Deferred or 'Y' for Deferred invoice line items.

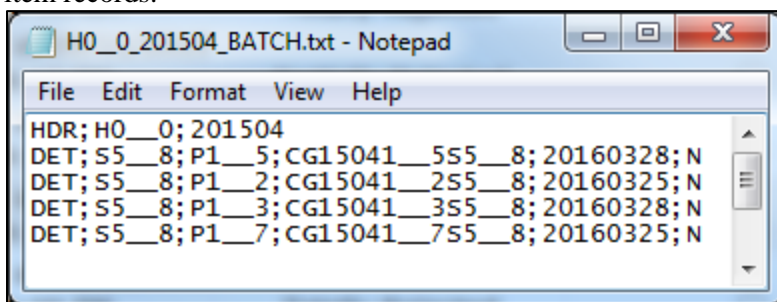

Example of a non-deferred invoice line item:

- DET;H9999;P9999;CGYYQQP9999H9999;CYYMMDD;N

Example of a deferred invoice line item:

- DET; H9999;P9999;CGYYQQP9999H9999;CYYMMDD;Y

This example displays a batch text file containing one (1) header record and multiple invoice line item records.

Note: Creation of batch text files can only contain invoice line items for the same reporting period.

9. Save the batch text file with all selected invoice line items using a Sponsor-determined file naming convention.
10. On the **Payments** tab, select the **Payment Initiation Upload** region.
11. Select the Browse... button to search for the batch text file to be loaded to the Portal.

12. Locate and select the batch text file to load to the Portal and select the Open button to upload the text file to the Portal.

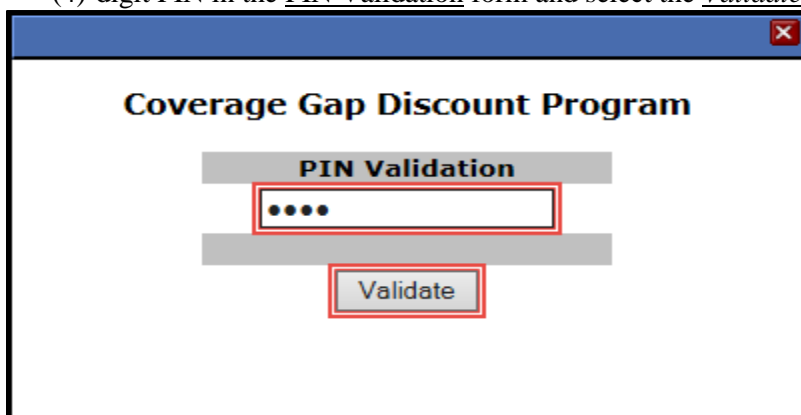

This example displays the search for a specific batch text file for upload to the Portal.

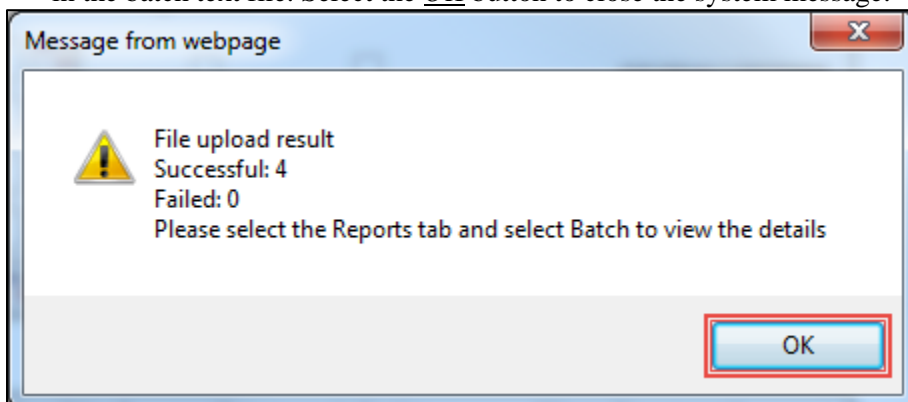

13. In the **Payment Initiation Upload** region, the computer location of the batch text file populates the field to the left of the Browse... button. Select the Upload button to load the text file to the Portal.

14. To process the submission of the payment initiation file, enter the **Payment Initiator** role four (4)-digit PIN in the PIN Validation form and select the Validate button.

15. After the Payment Initiation Upload process completes, the Portal will display a system-generated message providing information of the success/failure of invoice line items included in the batch text file. Select the OK button to close the system message.

16. To review batch text files, select the **Reports** tab and populate the Batch radio button for the selected batch file.

- Open to view the data in text file format
- Save to save the data in text file format
- Cancel to exit the decision message

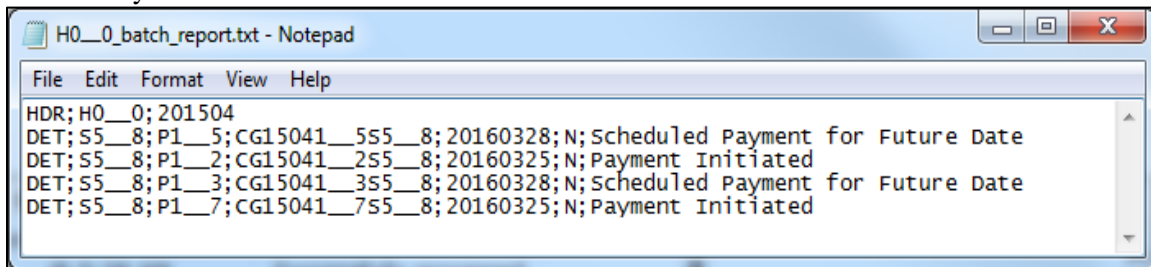

This example displays the selected Open button.

18. Review the downloaded batch text file for processing messages following each batch file line item.

For failed batch file items each error should be reviewed and updated in a modified **Payment Initiation Upload** batch text file to correct the errors prior to uploading the batch text file to the Portal.

This example displays the downloaded batch text file containing multiple lines that processed successfully.

Note: Refer to the [Help](#) link located in the top right of any Portal tab or refer to [Appendix B: Error Message Descriptions](#) listing for system code descriptions displayed in batch reports.

19. Return to the **Reports** tab to review the Last Download Date column populated with the most recent date and time of download for the file.

You have now completed creation, upload, and review of a payment batch text file for the **Payment Initiation Upload** functionality.

Processing Deferred Invoices

The Portal provides the ability to defer payment of distributed invoice line items to a subsequent reporting period **if**:

- The Total Available amount field in the **Payment Information region** totals less than the Portal's system-default allowable amount and
- A Sponsor's banking ACH process prevents processing of the total amounts selected for payment initiation that fall below their specified minimum dollar ACH processing amount for a specific payment date.

The payment initiation process used by the Portal initiates a lump sum debit from Sponsor bank accounts for the total amount of payments initiated per day, not individual line item debits.

Defer functionality becomes available if the amount listed in the Total Available field is less than the Portal's system-default allowable amount, currently designated as \$20.00 USD.

The instructions provided present different scenarios for how the Defer process functionality works.

The most important facts to know before deferring an invoice:

- All Sponsors are responsible for verifying their banking institution's specific threshold for low-dollar ACH amounts permitted for processing.
- The Portal processes initiated payments as a lump sum debit from Sponsor accounts for the total number of invoices selected to initiate on a specific day, not as individual invoice line items.

Defer Eligible Invoices – Total Available Is Less Than \$20.00 USD

This instruction provides direction on when to use the defer process.

Instruction Scenario:

Invoices distributed for a reporting period display a Total Available amount less than the Portal's system-default allowable amount, currently set at \$20.00 USD. The Defer column displays check boxes for all available distributed invoice line items.

This Sponsor's banking institution allows ACH processing for dollar amounts greater than \$5.00 USD. In this scenario, the Total Available amount of all invoices is less than this Sponsor's bank ACH minimum threshold of \$5.00 USD, so all invoice line items are eligible for deferment.

Remember: Just because the Defer check box is available does not mean it should be used. Sponsors are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Sponsor associates assigned the Payment Initiation role.

1. Authorized end users will access the Portal to review invoices due for payment and use the deferment process, if applicable. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the specific type of invoice from the drop down list located in the Invoice Type field.

Non-Eligible Defer – Total Available Greater Than \$20.00 USD

This instruction provides direction on when the deferment process is not applicable.

Instruction Scenario:

Invoices distributed for a reporting period display a Total Available amount greater than the Portal's system-default allowable amount, currently set at \$20.00 USD. The Defer check box does not display for any distributed invoice line item *if* the Total Available amount is greater than the Portal's \$20.00 USD default amount.

In this scenario, the Total Available amount of all invoices is greater than the Portal's default amount, so all invoice line items are eligible for payment processing and not deferment.

Remember: Sponsors are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Sponsor associates assigned the Payment Initiation role.

1. Authorized end users will access the Portal to process payments for invoices not eligible for deferment. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the specific type of invoice from the drop down list located in the Invoice Type field.

Prior Reporting Period Defer – N/A Payable Invoices Distributed for Reporting Period

This instruction provides direction on how to process previously deferred items when the current reporting period has no payable invoice activity available.

Instruction Scenario:

Invoices deferred from a prior reporting period require additional processing. The current reporting period contains only distributed invoices for receipt from Manufacturers. No payable invoices are available.

In this scenario, the prior period deferred items require processing in the current period; however, the current period does not have any payable invoices. The Total Available amount of all invoices is less than this Sponsor's bank ACH minimum threshold of \$5.00 USD, so all invoice line items are eligible for deferment

Remember: Sponsors are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Sponsor associates assigned the Payment Initiation role.

Prior Reporting Period Defer – No Invoices Distributed for Current Reporting Period

This instruction provides direction on how to process previously deferred items when the current reporting period has no invoice activity available.

Instruction Scenario:

Invoices deferred from a prior reporting period require additional processing. The current reporting period did not receive distributed invoices available for payment or receipt. The Portal updates the prior reporting period status to Incomplete as well as updating the reporting period line item with a red font. Users are required to review any reporting periods with statuses other than Successful and perform processing as necessary to remain in program compliance.

In this scenario, the prior period deferred items require processing, even though the current period has no invoices distributed for payment or receipt. The Total Available amount of all invoices is less than this Sponsor's bank ACH minimum threshold of \$5.00 USD, so all invoice line items are eligible for deferment.

Remember: Sponsors are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiation** role.

1. Authorized end users will access the Portal to process previously deferred items when the current reporting period has no invoice activity available. - Review the invoice line items in the **Payment Initiation region** and notice that the Defer column's check box is only available when the **Payment Information region's** Total Available field displays an amount less than \$20.00 USD.

This example displays active Defer check boxes for invoice line items that fall below the Portal allowable amount of \$20.00 USD and fall below this Sponsor's bank ACH minimum threshold amount.

Remember: Just because the Defer check box is available does not mean it should be used. Sponsors are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing. Initiated invoices are processed as a lump sum debit, not individual line items. If the Sponsor's banking institution can process the amount displayed for the Total Available field, the Sponsor **should not** utilize the Defer process.

- Populate the Defer check boxes with a check mark to select all invoice line item(s) for deferment and select the Submit button, located at the bottom right of the **Payment Initiation region**.

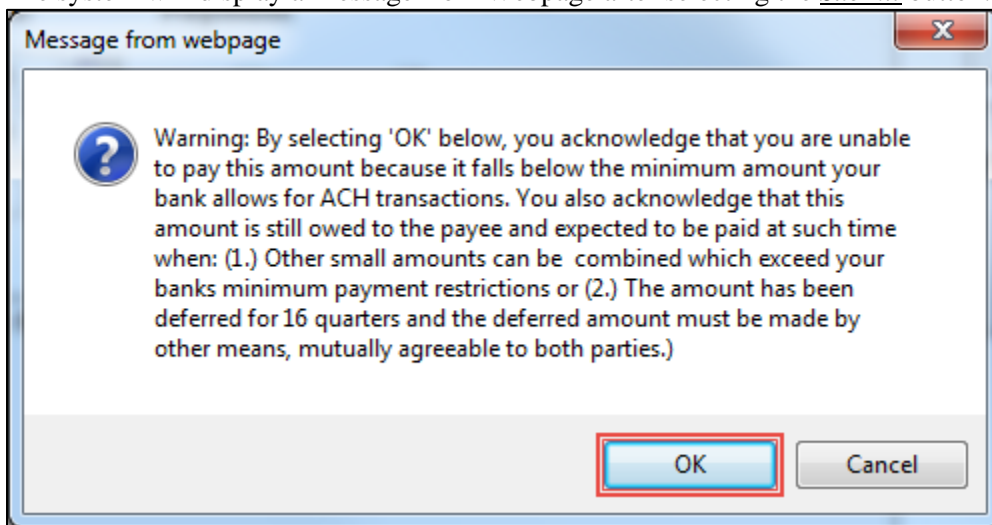

Note: Selecting Defer is **only** applicable when the Total Available field's total is less than \$20.00 USD **and** if the Sponsor's bank ACH process prevents processing total amounts selected for payment initiation that fall below their bank's specified minimum ACH processing amount.

Invoice line items will no longer be available for deferment if the invoice line item(s) remains unprocessed for payment for 16 reporting periods. Invoice line item(s) in this status will require payment processing between the two (2) entities.

7. To process the submission of the deferred payment, enter the **Payment Initiation** role four (4)-digit PIN in the **PIN Validation** form and select the **Validate** button.

A screenshot of a web application window titled "Coverage Gap Discount Program". Inside the window, there is a section titled "PIN Validation". Below this title is a text input field containing four dots, representing a masked PIN. Below the input field is a button labeled "Validate". Both the input field and the button are highlighted with red rectangular boxes.

The system will display a Message from Webpage after selecting the **Submit** button.

Note: Selecting the **OK** button to defer the invoice line item to the subsequent period creates an irreversible event.

If it is determined that the selected line is not the correct deferrable invoice to process, utilize the **Cancel** button to exit the message screen and update the invoice line item.

8. Select **OK** to defer the selected invoice line item.

9. Once the defer process is complete, review the **Payment Information region** Total Current Deferred field for updated amounts.

CGDP Portal – Payments Tab: Benefit Year (BY) Closeout Invoices

The release of Benefit Year (BY) Closeout Invoice Reports for Part D Sponsors occurs annually through the TPA approximately fifteen (15) months after a benefit year's Quarter 17 (Q17) invoice receipt date. This reporting process allows the Part D Sponsor to remit payment for any successfully disputed gap discounts invoiced in Q17 and for any successful disputes from previous quarters of the benefit year in which the Part D Sponsor has only recently corrected. If an upheld dispute for a gap discount invoiced in Q17 occurs, it is possible that the Sponsor would need to reimburse the Manufacturer for all or some portion of the successfully disputed gap discount amount.

Sponsors are required to process BY Closeout invoice line item payments on an annual basis within 38 calendar days from receipt of the distributed invoices. The Portal allows a user to process payments for BY Closeout invoice line items with a default payment date of the current calendar day.

The **Payments** tab allows a user to review and process payment information for invoice line items by contract number.

For the BY Closeout, the three (3) differences between quarterly invoice processing and BY Closeout processing are:

- Update of the **Invoice Reporting Period region** to the **Reimbursement Report Year region**
- Update to the format of the **EFT ID** column pertaining to BY Closeout invoices in the **Payment Initiation region**
- Absence of the **Payment Initiation Upload region** in the **Payments** tab

All other **Payments** tab functionality remains the same.

Coming up, the next page will display the regions that contain differences in the **Payments** tab based on processing BY Closeout invoices. All other **Payments** tab functionality remains the same as quarterly invoice processing.

Reimbursement Report Year Region

For BY Closeout invoicing, this section of the **Payments** tab displays the specified reimbursement report year, in YYYY format, based on the Invoice Type selected in the **Filter region** on the **Home** tab.

In the example displayed, the distributed invoice line items appearing in the **Payment Initiation region** are associated with the reimbursement report year listed in the **Reimbursement Report Year region**.

2 Reimbursement Report Year: 2016

Payment Initiation Region

This region contains the same eleven fields that are available when processing quarterly invoice payments that assist a user in processing invoice line items for payment.

The following column has updated information for the BY Closeout invoice processing.

- I. EFT ID column provides a descriptive identifier for distributed invoice payments made to Manufacturers to allow reconciliation of payments received.

The format of the EFT ID for BY Closeout is **UDYYYY9999H9999**.

- **UD**: Upheld Dispute payment
- **YYYY**: BY Closeout reporting period
- **9999**: Manufacture P Number (**Note**: P Number displayed without the preceding 'P')
- **H9999**: Sponsor contract number

Information provided in the instructions displays the **Payment Initiator** role to describe the functionality of the **Payments** tab for the BY Closeout process.

CGDP Portal Instructions – Payments: Benefit Year (BY) Closeout Invoice

Processing BY Closeout Invoice Payments

This instruction provides Sponsors direction on the steps needed to process individual invoice line item payments for BY Closeout invoices utilizing the current calendar day as the payment initiation date.

All Payment functionality, save for the **Payment Batch Upload** functionality, is available for Sponsors to use to process BY Closeout invoices. These payment functionalities include:

- *Processing Future Dated Invoice Payments*
- *Initiate All Payment Processing Functionality*
- *Processing Stop Payments*
- *Processing Deferred Invoices*

Note: Completion of this process is limited to Sponsor associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to process BY Closeout invoice line item payments due within 38 calendar days from receipt of the distributed invoices. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable contract number from the drop down list located in the Contract Number field.

¹To view completed payments for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

The **Completed** tab has six (6) regions.

1. **Tabbed region** displays the tab that is currently active and tabs available for selection.
2. **Invoice Reporting Period region** displays the specified quarterly reporting period for the invoice line items based on the reporting period selected in the **Home Filter region**, in YYYYQQ format.
3. **Filter region – Completed** allows a user to search data listed by the defaulted Parent Org. ID.
4. **Completed Payment Information region** displays the numerical totals of all invoice line items and the different categories that each invoice line item may qualify as at a specific point in time. Invoice line items reclassify as they process through the system.
5. **Completed Transactions region** displays results based on data entered in the **Completed Filter region**.
6. **Status Definitions region** provides definitions of the statuses displayed in the **Completed Transaction region**.

The upcoming pages will describe each region and its associated functions.

Tabbed region - Completed

The **Tabbed region** allows a user to select different activities to perform while accessing the system. This example displays the active **Completed** tab.

Invoice Reporting Period Region

This section of the **Completed** tab displays the specified reporting quarter, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In this example, the completed invoice line items appearing in the **Filter Results region** on the **Completed** tab are associated with the reporting period listed in the **Invoice Reporting Period region**.

This region also contains a footnote regarding the data displayed in the **Invoice Reporting Period region**. This footnote provides a user instruction on how to review completed payments for a different reporting period.

To view completed payments for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Filter Region – Completed

The **Filter region** on the **Completed** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

- A. P Number field allows a user to select specific P numbers for completed invoice line items.
Note: this field's drop down menu will only allow update to P numbers that have completed invoice line items in the same reporting period. The field defaults to 'ALL', which displays all P numbers for the reporting period.
- B. Parent Org. ID column defaults to the Parent Organization ID utilized to access the system.
- C. Contract Number field displays the contract number for completed invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. This field's drop down menu provides update capability to select another contract number from those assigned to the Parent Organization ID for the same reporting period.
- D. Item Count column displays the number of invoice line items displayed on the current page of the total number of invoices included for the reporting period.

Payment Information Region

The **Payment Information region** provides a summary view of activities that occur on the **Completed** tab.

This region provides up-to-date data regarding completed invoice line item activity in a two (2)-column table with seven (7) rows.

CGDP Portal – Completed Tab: Benefit Year (BY) Closeout Invoices

The **Completed** tab also allows a user to review completed payment information for BY Closeout invoice line items by contract number.

The screenshot displays the 'Completed' tab in the CGDP Sponsor Portal. The interface includes a navigation bar with 'Home', 'Payments', 'Completed' (highlighted), 'Receipts', 'Reports', and 'Disputes'. Below the navigation bar, the 'Sponsor Portal' and 'CGDP Completed Payments' sections are visible. A search bar contains filters for 'P Number: ALL', 'Parent Org. ID: S5__0', and 'Contract Number: S5__0'. A 'Reimbursement Report Year: 2016' dropdown is also present. A table lists payment details with columns for P Number, Invoiced Amount, Payment Date, Status, and EFTID. A summary box on the right shows 'Payment Information for S5__0' with totals for Invoiced, Received, Deferred, Pending, Failed, and Outstanding amounts. A 'Possible Statuses' section explains the meanings of Deferred, Pending, and Successful statuses. A note at the bottom indicates that users can view completed payments for a different reporting period by returning to the Home tab and selecting the appropriate radio button.

- Successful** Funds should now be available in the payee's account

To view completed payments for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

For the BY Closeout **Completed** page, the differences between quarterly invoice processing and BY Closeout processing are:

- Update of the **Invoice Reporting Period** region to the **Reimbursement Report Year** region
- Update to the format of the **EFT ID** column pertaining to BY Closeout invoices in the **Completed Payment Transactions** region

All other **Receipts** tab functionality remains the same.

The next page will display the regions that contain differences in the **Completed** tab based on processing BY Closeout invoices. All other **Completed** tab functionality remains the same as quarterly invoice processing.

Reimbursement Report Year Region

For BY Closeout invoicing, this section of the **Completed** tab displays the specified reimbursement report period, in YYYY format, based on the invoicing period selected on the **Home** tab.

In this example, the report year listed in the **Reimbursement Report Year region** is associated with the completed invoice line items appearing in the Completed **Filter Results region**.

2 Reimbursement Report Year: 2016 1

This region also contains a footnote regarding the data displayed in the **Reimbursement Report Year region**. This footnote provides a user instruction on how to review completed payments for a different reporting period.

To view completed payments for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Completed Payments Transactions Region for BY Closeout Invoices

The **Completed Transactions region** provides a detail view of successful payments or deferred invoices.

The columns displayed in the **Completed Payments Transactions region** are the same, with the only exception pertaining to the EFT ID. The EFT ID column data pertains to BY Closeout receipt invoice types.

E. EFT ID column displays EFT identifying information for BY Closeout invoice receipts.

¹To view receipts for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

The invoice line item selected on the **Home** tab drives information displayed on the **Receipts** tab.

The **Receipts** tab contains six (6) regions.

1. **Tabbed region** displays the tab that is currently active and tabs available for selection.
2. **Invoice Reporting Period region** displays the specified quarterly reporting period for the invoice line items, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.
3. **Filter region – Receipts** allows a user to search data listed by the defaulted Parent Org. ID.
4. **Receipt Information region** displays the numerical totals of all invoice line items. Also displays statuses that each invoice line item may qualify as at a specific point in time. Invoice line item statuses reclassify as they process through the system.
5. **Receipts Transactions region** displays results based on data entered in the **Filter region** on the **Receipts** tab.
6. **Status Definitions region** provides definitions of the statuses displayed in the **Receipts Transactions region**.

The upcoming pages will describe each region and its associated functions.

Tabbed Region – Receipts

The **Tabbed region** allows a user to select different activities to perform while accessing the system. In this example, the **Receipts** tab is active.

Invoice Reporting Period Region

This section of the **Receipts** tab displays the specified reporting period, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In this example, the reporting period listed in the **Invoice Reporting Period region** is associated with the completed invoice line items appearing in the **Receipts Filter Results region**.

This region also contains a footnote regarding the data displayed in the **Invoice Reporting Period region**. This footnote provides a user instruction on how to review receipt of payments for a different reporting period.

To view receipts for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Filter Region – Receipts

The **Filter region** on the **Receipts** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

- A. P Number field allows a user to select specific P Number from the drop down list. The field defaults to 'ALL', which displays all P numbers for the reporting period. The drop down list provides update capability to select another P number with line items due within the same reporting period for the selected contract number displayed in the Contract Number field.
- B. Parent Org. ID column defaults to the Parent Organization ID utilized to access the system.
- C. Contract Number field displays the contract number for invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. The drop down list provides update capability to select another contract number from those assigned to the Parent Organization ID.
Note: this field will only allow update to Contract Numbers that have invoice line items for the same reporting period. In order to view a different reporting period, a user will need to return to the **Home** tab and select a distributed invoice with a different reporting period.
- D. Item Count column displays the number of invoice line items displayed on the current page of the total number of invoices included for the reporting period.

Receipt Information Region

The **Receipt Information region** provides a summary view of activities that occur on the **Receipts** tab.

This region provides up-to-date data regarding invoice line item activity in a two (2)-column table with six (6) rows.

4

Receipt Information for H7__7		
A	Total Owed	\$55,288.76
B	Total Received	\$1,016.86
C	Total Deferred	\$0.50
D	Total Pending	\$1,671.92
E	Total Outstanding	\$52,599.48

- A. Total Owed displays total dollar amount of invoice line items due from Manufacturers.
- B. Total Received displays the total dollar amount of invoice line items received from Manufacturers.
- C. Total Deferred displays the total dollar amount of deferred invoice line items less than the system-default allowable amount not received from Manufacturers.
- D. Total Pending displays total dollar amount of payments initiated but not finalized.
- E. Total Outstanding displays the total dollar amount of remaining invoice line items requiring payment from Manufacturers.

Receipts Transactions Region

The **Receipts Transactions region** contains five (5) columns that provide a list of invoice line items that are pending completion of the payment process from a Manufacturer.

Received	Funds should now be available in your account

CGDP Portal Instructions – Receipts

Reviewing Invoices on the Receipts Tab

Sponsors can utilize the CGDP Portal to view the status of invoice line items that are due for receipt from Manufacturers. The invoice line item selected on the **Home** tab drives information displayed on the **Receipts** tab.

This instruction provides direction on accessing the **Receipts** tab and the functions available for use.

1. Authorized end users will access the Portal to review quarterly invoice line item amounts due from Sponsors. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select a type of invoice to view from the **Invoice Type** field.

CGDP Portal Reporting Link

The **Reporting link** allows Sponsors to create on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period via the Portal. The design of the **Reporting link** assists users in creating a report containing all data in one (1) Excel file versus individual pages of data obtained by using the Print icon available on each tab.

The **Reporting link** allows a user to generate reports for specific data criteria or all available data criteria for invoice line items or receipts.

1. **Detail Report Column Header Selection region** provides users with ability to select column headings for populating a report with data for invoices or receipts based on the column headings and applicable data chosen for an Excel spreadsheet output.
2. **Detail Report Filters region** allows a user to select specific criteria to display in detail for invoices or receipts.
3. **Sponsor Summary Report region** allows users to generate payment summary reports for a Parent Organization ID including payment summary information for all contract numbers, Reporting Periods and Payment Statuses or have the ability generate reports based on specific contract numbers, Reporting Periods or Payment Statuses, as determined by a user.

The upcoming pages will describe each region and its associated functions.

Detail Report Column Heading Selection Region

The **Detail Report Column Heading Selection region** provides users with the ability to select specific column headings for populating reports with data for invoices or receipts.

The **Detail Report Column Heading Selection region** contains nine (9) check boxes to provide users with options for populating invoice line item or receipt data to an Excel spreadsheet on-demand report.

1 Select which items you want to display on the report (Detail Reports Only)				
A <input type="checkbox"/> Parent Org. ID	B <input type="checkbox"/> Contract Number	C <input type="checkbox"/> P Number	D <input type="checkbox"/> Status	
E <input type="checkbox"/> Reporting Period	F <input type="checkbox"/> Invoice/Receipt Amount	G <input type="checkbox"/> Payment Status Date	H <input type="checkbox"/> Payment Initiation Date	I <input type="checkbox"/> EFT

- A. Parent Org ID check box will display Parent Organization ID column headings for data included in the spreadsheet.
- B. Contract Number check box will display contract number(s) column headings for data included in the spreadsheet.
- C. P Number check box will display P number(s) for data included in spreadsheet.
- D. Status check box will display Status column headings for data included in spreadsheet.
- E. Reporting Period check box will display Reporting Period column headings for data included in the spreadsheet.
- F. Invoice /Receipt Amount check box will display Invoice Amount or Receipt Amount column headings for data included in the spreadsheet.
- G. Payment Status Date check box will display Payment Status Date column headings for data included in the spreadsheet.
- H. Payment Initiation Date check box will display Payment Initiation Date column headings for data included in the spreadsheet.
- I. EFT check box will display EFT column headings for data included in the spreadsheet.

Note: This region is only available for detail Invoice or Receipt reports.

A user is not required to select any of the check boxes.

Leaving all checkboxes blank will populate the on-demand report with all column headings on the spreadsheet output. Selection of additional filters will limit the data displayed on a report.

Detail Report Filters Region

The **Detail Report Filters region** contains six (6) fields to assist a user with defining data included in an on-demand report.

The screenshot shows a section titled "2 Detail Report Filters" with a grey header. Below the header are five filter fields, each with a lettered label (A-E) and a dropdown menu. Field A is "Report Source", B is "Select P Number", C is "Select Contract ID", D is "Select By Status", and E is "Reporting Period". Each dropdown menu has a downward arrow icon. Below these fields is a blue link labeled "F Run Query for Detailed Report".

- A. Report Source field allows users to select between Invoice and Receipt from the drop down list.
Note: Selection of the Report Source is required to determine the type of data included in the on-demand spreadsheet report.
- B. Select Contract Number field allows user to select specific contract number(s) from the drop down list.
- C. Select P Number field allows user to select specific P number(s) from the drop down list.
- D. Select By Status field allows users to select specific Status from the drop down list. Statuses include Completed, Deferred, Failed, Pending, and Unpaid.
- E. Reporting Period field allows users to select specific Reporting Period(s) from the drop down listing.
- F. Run Query for Detailed Report link creates on-demand report spreadsheet(s) with column heading and filter data selections populated by a user.

Note: Population of the Report Source field is required to generate an on-demand spreadsheet report.
All other fields are optional.
Selection of additional filters will limit the data displayed on a report.

Sponsor Summary Report Region

The **Sponsor Summary Report region** displays selection criteria fields to allow users to customize summary reports based on contract number, reporting period or status for payment data only.

The summary report region contains four (4) fields to limit data displayed on the on-demand report spreadsheet.

The screenshot shows a web interface titled "3 Sponsor Summary Report". It contains four items labeled A, B, C, and D. Item A is "Summary Report for Contract Number:" followed by a dropdown menu. Item B is "Reporting Period" followed by a dropdown menu. Item C is "Sponsor Status" followed by a dropdown menu. Item D is a blue underlined link that says "Run Sponsor Summary Query".

- A. Summary Report for Contract Number field allows user to select specific contract number(s) from the drop down list associated with the Parent Organization ID.
- B. Reporting Period field allows users to select specific reporting period(s) from the drop down listing.
- C. Sponsor Status field allows users to select specific Status from the drop down list. Statuses include Completed, Deferred, Failed, Pending, and Unpaid.
- D. Run Sponsor Summary Query link creates on-demand report spreadsheet with summary report filter data selections populated by a user.

Note: Population of all fields is optional.
Selection of additional filters will limit the data displayed on a report.

CGDP Portal Instructions – Reporting Link

Accessing the Reporting Link

Sponsors can utilize the **Reporting** functionality to view a readable version of the data report in Microsoft Excel via the Portal. This ad hoc/on-demand reporting tool provides users with the ability to filter invoice and receipt related information.

This instruction provides direction on accessing the **Reporting link** and the functions available for use.

1. Authorized end users will access the Portal to create and review detail invoice and receipt reports. Instructions for daily login into the Portal are in the **CGDP Sponsor Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the **Reporting link** in the upper right hand corner of the screen.

5. The upcoming steps provide direction for generating detail invoice and receipt reports utilizing the **Detail Report Column Heading Selection** and **Detail Report Filters** regions.
6. The first region of the **Reporting link** page, the **Detail Report Column Heading Selection region**, allows a user to filter information by populating one (1) of the nine (9) check boxes available.

Select which items you want to display on the report (Detail Reports Only)

☐ Parent Org. ID
 ☐ Contract Number
 ☐ P Number
 ☐ Status
☐ Reporting Period
☐ Invoice/Receipt Amount
☐ Payment Status Date
☐ Payment Initiation Date
☐ EFT

Note: Selection of check boxes in this region limits the data displayed in the report output. To view all available data for a Parent Organization ID for both invoices and receipts, leave all check boxes blank.

8. The second region of the **Reporting link** page, the **Detail Report Filters region**, allows a user to select between Invoice or Receipt reports. The Report Source field is a required field.

Note: Selection of specific data in each filter in this region limits the data displayed in the report output. To view all available data for a Parent Organization ID for both invoices and receipts, leave all filter fields blank except the Report Source field then select the Run Query for Detailed Report link to generate the detail report.

9. To generate an Invoice report, select the **Detail Column Heading Selection region** check boxes applicable to the desired report output, populate the Report Source field using the drop down list and any applicable report filter fields in the **Detail Report Filters region** then select the Run Query for Detailed Report link.

This example displays detail report selections for an Invoice report containing all available data for a Parent Organization ID.

10. Select one (1) of the decision buttons in the message that appears at the bottom of the screen.
- Open to view the data in text file format
 - Save to save the dispute file in text file format to a user's hard drive or system
 - Cancel to exit the decision message

This example displays the selected Open button.

11. After selecting the Open button, review the Excel spreadsheet output containing invoice data.

Summary

This **CGDP Sponsor Portal Payments Users Guide** introduced the CGDP Portal's **Payments** tab functionality.

The primary function of the Portal is to provide a central repository for Program-qualified PDE invoices to be distributed and paid by Program participating Sponsors and Manufacturers with the ability to initiate bank-to-bank ACH transfers, similar to the way online banking customer pay monthly bills.

You have learned that the Portal houses invoices for Quarterly and BY Closeout invoices and has two (2) different roles for users to access distributed invoices and reports: The **Payment Initiator** role and the **Administrator** role.

This Users Guide also introduced the following functionality available to authorized Sponsor users:

- The **Payments** tab provides payment capabilities to allow the selection of one (1), some, or all the invoices distributed for payment processing. Invoice payments can be future dated and stop paid, if certain criteria are met. Payments may also be available for deferability, if the amounts fall below the systems deferred allowable amount.
- The **Completed** tab provides status information of previously initiated payments that have completed the nightly status update process successfully.
- The **Receipts** tab provides a listing of invoiced line items due to be paid to Sponsors by Program-participating Manufacturers.
- The **Reporting** link provides a user with the ability to generate on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period.

Finally, you discovered that all payments are due to be completed in the Portal on or before the payment date listed in the **Payments Due region**, as listed on the **Payments** tab and as noted in the “*Invoice Paid By 38th Calendar Day After Receipt*” as defined in the [Medicare Part D CGDP Calendar](#).
